

2008 CIBSE / SBSE

# LEAN AND GREEN? Adapt or DIE!

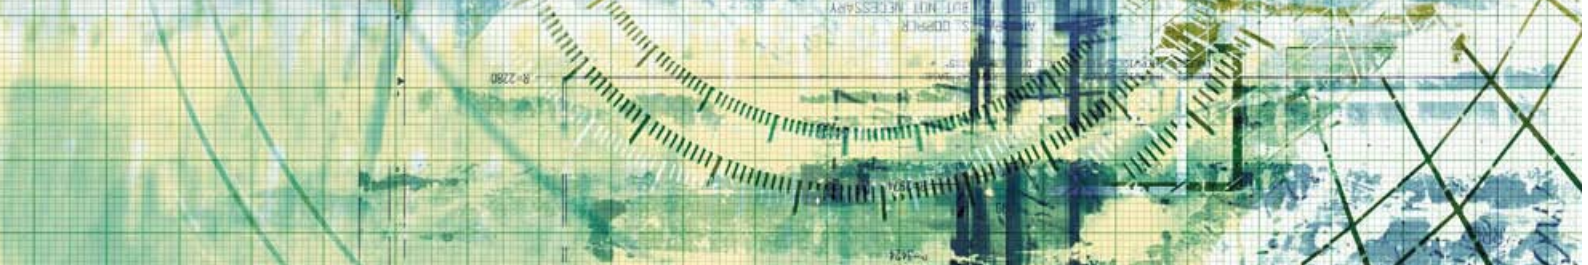

Over **95%** of buildings are not green, deliver a suboptimal workplace environment and could be considerably more productive. With sustainability comes complexity. This requires more flexible and creative solutions to create an intelligent building.

VIP KEYNOTE SPEAKER  
WORKSHOP SERIES

Challenges & Opportunities  
for the Built Environment

Green Intelligent Buildings  
From Promise to Reality

Creating the Productive  
Workplace

## WHO SHOULD ATTEND?

The information provided will be essential for:

- engineers;
- architects;
- academics;
- builders;
- suppliers;
- planners and developers;
- building owners and tenants;
- facility managers; and
- broad range of government agencies
- at local, state and federal levels.

**This workshop series presents a unique opportunity to hear and interact with two renowned experts.**

Professor Derek Clements-Croome is a Vice President CIBSE, & Director of Research, School of Construction Management & Engineering at Reading University, UK.

P C Thomas is a Director of Team Catalyst Pty Ltd, Sydney, specializing in modelling simulation analysis to make buildings energy efficient and reduce greenhouse gases.

## WHO SHOULD ATTEND?

They will include case studies as well as the latest research needed to guide building professionals towards providing healthy, sustainable and effective work conditions. Much remains to be done to translate this holistic, integrated environmental concept into a message for clients. The workshops will explain how business value can be enhanced to meet people's rising expectations while using less of the environment's resources.

An informed public is demanding greater accountability in the built environment. This interactive workshop opportunity with international and national experts should not to be missed!

Professor Clements-Croome wants people to think about new possibilities—not simply to walk away from the workshops with a set of standard solutions

## COST (Including GST)

### AUSTRALIA

Members of associated professional societies: \$A165.00  
Non-members: \$A198.00

### NEW ZEALAND

Members of associated professional societies \$NZ165.00  
Non-members:\$SNZ198.00
